

Engenia®

Herbicide

General Mixing Order Guidelines for Engenia® Herbicide

Mixing Order

Never allow products to mix together prior to adding to the tank.

1. Fill sprayer 1/2 to 3/4 full of clean water – start agitation
2. Add pH buffering adjuvant*, such as AEGOS™ or Sentris™ Buffering Technology, compatibility agent and/or defoamer
3. Add Non-DRA containing water conditioner
4. Add water dispersible products (WDG, DF, WP)
 - Zidua® WG herbicide
5. Continue agitation
6. Add suspension concentrate (SC)
 - Zidua Pro herbicide
 - Zidua SC herbicide
 - Sharpen® herbicide
7. Add encapsulated products (CS)
 - Prowl® H2O herbicide
8. Add guar-containing DRA or deposition aid products
9. Add soluble liquids (SL)
 - Engenia herbicide
 - Glyphosate
10. Add emulsifiable concentrates (EC)
 - Outlook® herbicide
 - Clethodim
11. Add NIS/oil-adjuvants
12. Add acrylamide-containing DRA or deposition aid products
13. Add nutritionals
14. Add remaining quantity of water
15. Continue agitation and maintain throughout application

***EVERY application of Engenia herbicide requires the use of an approved pH buffering adjuvant.**

All tank mix components with Engenia herbicide must be approved by the EPA and shown not to adversely affect the spray drift properties of Engenia herbicide. Approved tank mix components are listed by commercial brand name on www.EngeniaTankmix.com. The EPA conditions of registration do not require testing of tank mix partners for crop tolerance or physical compatibility. Therefore, to the extent consistent with applicable law, BASF Crop Protection makes no warranties express or implied regarding crop tolerance or physical compatibility of tank mixes of these products with Engenia Herbicide. **Before mixing components, always conduct a compatibility jar test.** Always consult respective product labels for specific mixing instructions. The most restrictive label applies. The following are general mixing order guidelines. See the Engenia herbicide label for more detailed information. **This summary is not a substitute for reading and following all product labeling.**

Only approved products can be tankmixed with Engenia herbicide. For approved brand name tankmix product options and approved nozzles, please refer to www.EngeniaTankmix.com.

Engenia Herbicide is a US EPA Restricted Use Pesticide.

Additional state restrictions may apply. Always read and follow label directions.
