

# Engenia® Herbicide Weed Control Guarantee

Every missed weed steals water and nutrients from valuable crops, impacting your yield. Weeds like Palmer amaranth, marehail, waterhemp, kochia and ragweed can create problems this year and for years to come. Engenia herbicide is the most flexible and advanced dicamba for your dicamba tolerant cotton and soybean.

## **Growers Can be Confident in Their Decision to Choose Engenia Herbicide:**

- Effective on over 200 broadleaf weeds
- Proprietary BAPMA salt reduces volatility potential and has excellent crop tolerance
- Dicamba product with the lowest use rate at 12.8 fl oz/A, also convenient for use with direct injection
- BASF provides best in class applicator and agronomic support including: training, digital tools, and supplemental resources
- Backed by the Engenia Herbicide Weed Control Guarantee (see following page)
- Farmers may be eligible for up to \$12 per acre towards the cost associated with a respray

## 2021 Engenia® Herbicide Weed Control Guarantee

When you apply Engenia herbicide according to label instructions and follow the below guidelines, we guarantee commercially acceptable weed control. If, within 30 days of the final post-emergence application, less than commercially acceptable weed control on labeled weeds is experienced, talk to your retailer or BASF representative for respray assistance on the affected acre. Farmers may be eligible for up to \$12 per acre towards the costs associated with a respray.

### Application Guidelines

#### Weed Management Requirements

##### Soybeans

1. Use adequate tillage or a BASF burndown herbicide.
2. Pre-plant or Preemergence  
**Option 1:** Zidua® PRO herbicide  
**Option 2:** Zidua herbicide plus other site of action herbicide such as Sharpen® or Verdict® herbicide
3. Postemergence  
Apply Engenia herbicide plus Outlook® herbicide or Zidua herbicide

##### Cotton

1. Use adequate tillage or a BASF burndown herbicide.
2. Pre-plant or Preemergence  
Apply an effective residual program pre-plant or preemergence incorporating brands such as Prowl® H2O herbicide
3. Postemergence\*  
**Application 1:** Apply Engenia herbicide\*\*  
**Application 2:** Apply Engenia herbicide\*\* or Liberty herbicide\*\*

#### Weed Height

Spray existing weeds up to 4" tall.

#### Application Requirements

Engenia herbicide is a US EPA Restricted Use Pesticide.

**EVERY application of Engenia herbicide requires the use of a pH buffering adjuvant such as Sentris™ Buffering Technology. Always read and follow all label directions.**

**Additional state restrictions may apply.**

**To learn more about Engenia Herbicide, visit [www.engeniastewardship.com](http://www.engeniastewardship.com).**

**For information on approved nozzles and tank-mixes, visit [www.engeniatankmix.com](http://www.engeniatankmix.com).**

\*Two postemergence applications must be made.

\*\*Outlook herbicide is required on either the first or second post application, and a residual herbicide is recommended for both applications.

Not following the above application guidelines will result in non-qualification for the 2021 Engenia Herbicide Weed Control Guarantee. Consult your BASF authorized retailer to learn more about the 2021 Engenia Weed Control Guarantee details and requirements.

#### Details

- An authorized BASF representative must be notified of an Engenia Herbicide Weed Control Guarantee claim within 30 days of application or by August 15, 2021, whichever occurs first, and have a reasonable opportunity to inspect the sprayed area prior to making any rescue applications. The authorized BASF representative must confirm inadequate control relative to commercially acceptable control. Commercially available weed control is defined as 90% or greater control of emerged weeds at time of application.
- Only product purchased from a BASF authorized retailer is eligible.
- BASF residual products are required for eligibility. Check with your local retailer or BASF representative for details to participate.
- If a grower follows the requirements outlined in the program document and experiences an additional flush of weeds, grower may be eligible for payment assistance associated with a respray application.
- All payments are subject to final approval by BASF.
- BASF reserves the right to audit all claims.
- BASF reserves the right to change any or all features of the Engenia Herbicide Weed Control Guarantee.
- No results are guaranteed.
- Submission of a claim under this program precludes grower from submitting a claim from any BASF product claims process or claims program with respect to the affected acres.
- Refer to full program document terms and conditions for further details.
