

2022 Season Program Summary

# Engenia® Herbicide Weed Control Guarantee Program

**Objective:** Communicate confidence in the performance of BASF herbicide programs by backing them up with this Weed Control Guarantee Program.

## Qualification

Apply Engenia herbicide in accordance with label instructions, BASF recommendations, and state and regional laws, including the use of BASF residual herbicides.

## Incentive

Up to \$15/A to reimburse re-spray costs.

## Engenia Herbicide Weed Control Guarantee Program

When you apply Engenia herbicide according to label instructions and follow the full program requirements, we guarantee commercially acceptable weed control through our programs.

If within 30 days of the post-emergence application Engenia herbicide, less than commercially acceptable weed control on labeled weeds is experienced, contact your retailer or BASF representative for up to \$15/A re-spray assistance on the affected acre.

## Program Requirements

1. Use adequate tillage or labeled burndown product
2. Effective residual program pre-plant or pre-emerge
3. Apply Engenia herbicide plus another residual like Outlook® or Zidua® SC herbicide
4. Follow full program terms and conditions

## Engenia Herbicide Application Requirements

Engenia herbicide is a US EPA Restricted Use Pesticide. EVERY application of Engenia herbicide requires the use of a pH buffering adjuvant such as AEGOS™ Buffering Technology. Additional state restrictions may apply.
